AURO Comfort 1060 SIRF20

PERSONAL TRACKING SOLUTION

- One Button SOS Function
- RevGeoGate Compatible
- Large fonts 10mm
- Big keypad buttons
- Direct dial buttons (M1/M2/M3)
- Alert type based on SMS
- Online tracking / geofencing
- Autonomous operation
- Personal security and recovery
- Internal antennas
- Integrated flashlight
- Hearing aid M3/T3 supported
- Certifications CE, Rohs, EIPR, PAH, HAC

The AURO Comfort 1060 is mainly designed for elderly people. The big buttons and large display font makes it easier for them to handle and read the mobile phone. The simplicity of the menu structure makes it easy to setup the phone. When the emergency button on the back is triggered the phone will dial out in hands free mode to 3 preset numbers where it completes the alarm process by sending location reports to 3 dedicated SMS numbers. An authorized phone number can control the phone remotely.
